

Stall/Spin Awareness

We all practice and perform stalls during training and for flight reviews. But stall/spin accidents annually account for 10 percent of GA accidents, and about one-third of those accidents result in fatalities. This presentation discusses the aerodynamics of stalls and spins and uses in-cockpit video to demonstrate stall/spin scenarios and avoidance/recovery techniques.

Directions: Western Washington Fairgrounds are located in Puyallup, just off Hwy 512, at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. FREE Parking in BLUE Lot. If flying into PLU see additional information below for airport shuttle details.

A message from the National FAASafety Team Manager
